Organisation

Content (Intent)

Prior Learning (Topic) Cells Continued

Students will have learnt SKILLS including food tests. Carrying out practicals safely to obtain reliable results.
Students will have learnt and built upon their KNOWLEDGE about the concept of cells and how they are differentiated to carry out their functions, linking to organs and their roles within the body and how being unhealthy can impact of health.
Students will have UNDERSTOOD the roles of tissues and organs within humans and plants. Specifically the digestive system, circulatory system and respiratory system.

Future Learning (Topic) Immunity and Response

What Knowledge and Skills will be taught (Implementation)	How will your understanding be assessed & recorded (Impact)
Knowledge - To recall that the human digestive system provides the body with nutrients and the respiratory system provides it with oxygen and removes carbon dioxide and how these materials are moved around the body in the blood by the circulatory system. To recall the types of enzyme, how they act and their importance. To identify coronary heart disease treatments and the impact of poor lifestyle choices on non-communicable disease.	**Key Piece of work (Homework)** Pupils given a percentage and formative feedback provided. **End of topic test** Pupils given a percentage, formative feedback and GCSE equivalent grade. **Year 9 end of year exams** Pupils given a percentage, formative feedback and GCSE equivalent grade.
Practical Skills – Required practical activity: use qualitative reagents to test for a range of carbohydrates, lipids and proteins. To include: Benedict's test for sugars; iodine test for starch; and Biuret reagent for protein. Required practical activity: investigate the effect of pH on the rate of reaction of amylase enzyme. **Maths Skills** – Using ratio and fractions. Calculating rate, graph drawing, means	

How can parents help at home?

Ensure all class work is completed and homework submitted on time.
Assist in ensuring the active use of the EDUCAKE online learning platform where each pupil is given a personal log on from their teachers.
Encourage pupils to revise for tests and exams and to create revision resources such as flash cards and posters.
Ensure all pupils have all their resources required for science lessons, including knowledge organisers, exercise books, pens and calculators

Helpful further reading/discussion (including Reading and Vocabulary Lists)

Reading
