

Subject	Year	Term
Geography	8	3
Topic		
Coasts		
Content (Intent)		
Prior Learning (Topic)	Development and Globalisation	
The coast is shaped by a number of physical processes. Distinctive coastal landforms are the result of rock type, structure and physical processes. Different management strategies can be used to protect coastlines from the effects of physical processes.		
Future Learning (Topic)	China v USA	
What Knowledge and Skills will be taught (Implementation)	How will your understanding be assessed & recorded (Impact)	
- Intro to Coasts - Coastal Erosion Processes - Headlands and Bays - Features of Headlands and case study (Old Harry) - Processes of deposition and associated landforms - Hard/soft Engineering - Swanage Walk Project - Piracy in the Indian Ocean.	Keyword vocabular test GCSE style questions on describing landforms	
How can parents help at home?		
Test knowledge of keywords Articles from BBC News Discussion of life living on island and possible days out at the beach.
